

DIXIE BEE LINE HIGHWAY CONTEST

Grows Warmer — Earlington and Madisonville Probably on Route

Evansville, Ind., June 28—Interest in the Dixie Bee Line Highway from Danville, Ill., to Nashville, Tenn., is now centering on the contest being made by cities at the proposed route for places on the highway. Two possible routes, both of which lead into the Dixie Highway in the vicinity of Nashville, are in the running and both are being championed by strong and powerful forces. One route runs directly south from Hopkinsville, Ky., to Nashville by way of Clarksville, Tenn. The other strikes off at Hopkinsville, runs through Guthrie, Ky., and joins the Dixie Highway north of Nashville.

Seven towns have combined forces to pull for the Guthrie route, and at a mass meeting held at Trenton, Ky., the other day they agreed to send 150 delegates to the highway convention, which will be held in this city on Thursday next. At Thursday's convention a committee will be appointed and given the power to select the official route of the Dixie Bee Line Highway. The towns that have banded together to pull for Guthrie route are: Pembroke, Trenton, Hopkinsville and Guthrie in Kentucky and Cedar Hill, Springfield and Adams in Tennessee. Efforts have been started by the combination to get a special train to carry its representatives to this city next Thursday. Clarksville, Tenn., is also holding Dixie Bee Line Highway booster meeting and everybody down that way is pulling for the Clarksville route.

John O. Keller, secretary of Evansville Business Association and known as the "Father of the Dixie Bee Line Highway," by reason of the fact that he first suggested it, has been notified that Elkton, Ky., expects to send a big delegation to the convention.

Ford Foolishness

He took four spoons
And an old tin can,
He called it a Ford,
And the darn thing ran.

A little gas, a little oil,
A little wire they call a coil;
A piece of tin, a 12-inch board
Nailed together, makes a Ford.

All There but the Tires

Ms. Smith was tearing the roof off his barn. His neighbor, Thompson, passing by, stopped and asked him what he was going to do with the tin. "That's just what I have been wondering," Smith replied. "Send it to the Ford Motor Co. They might be able to use it." Thompson suggested. So Smith acted on the suggestion, crated the tin, and shipped it to Detroit. A few days later he received a very courteous letter from the Ford Motor Co. "Your car," they wrote, "is one of the worst wrecks we have ever seen, but we'll have it fixed for you within a week or ten days."

No Speedometer Needed

Some economical person suggests that a speedometer is a wasteful extravagance on a Ford Car. "It's easy to gauge your speed," he explains. "When you go ten miles an hour, your lamps rattle; when you get up to twenty miles an hour, the fenders rattle; at twenty-five miles the windshields begin to rattle, and when you go faster than that your bones rattle."

Trying To Hide It

The doctor drove up to the general store in his new Ford one cold day in December, jumped out quickly, and threw a blanket over the hood. A small boy standing near shouted, "No use covering it up, Doc, I saw what it was."

Rexall Dyspepsia Tablets

RUNAWAY ON LOGTOWN HILL SUNDAY AFTERNOON

Emmitt Moore and Family Thrown Out of Buggy When Harness Breaks

Late Sunday afternoon Mr. and Mrs. Emmitt C. Moore and children Miss Flossie, Henry, James and Helen of the Grapevine country were driving into Earlington on the Madisonville road. At the top of reservoir hill the backing strap broke and threw the buggy on the horse, which becoming frightened left the main road and ran down the hollow to the right. By a miracle the buggy was not overturned until it struck a large rock which toppled it throwing out the entire family. Miss Flossie Moore a charming girl of near eighteen years was rendered unconscious for some time, how serious her injuries are is not quite certain but her condition is rather grave. The other members of the family suffered from bruises all rather severe. After resting awhile and being cared for by a colored family in Logtown Mrs. Moore was moved to her home, where she is at this a very serious condition.

For any itching skin troubles, piles, eczema, skin rheum, hives, scald head, herpes, scabies, Don's Ointment is highly recommended. 50c a box at all stores.

A COOL DRINK

Parties traveling through Crabtree these hot days should not fail to stop at the company store for a cool refreshing drink of pure water. Any of the gentlemanly clerks will be glad to furnish the Egyptian drinking vessel that is kept handy for the purpose. This peculiar vessel is probably one of the oldest in history and has been used for various purposes by all nations. The king in his palace and the peasant in his humble cot have used one since the first dawn of civilization and will in all likelihood continue to do so while time shall last. Do not fail to ask Dick Salmon for his Egyptian drinking cup and a cold drink of water when you go to Crabtree.

MR. BUSINESS MAN

Think This Over, it will Help
Your Business and
Help Ours

You will probably say as you laugh
up your sleeve, that times are hard,
that people have no money, and that
advertising in this instance will not
pay the Chicago mail order house.
But don't you be fooled.

Years of experience has taught
these big business men behind the
mail-order house that the profits of
the world in all lines of trade and
commerce are built on advertising.
The balance sheet of the mail-order
house, as long as you continue to
give it your field without a word of
objection, will continue to show the
enormous profits, and the yearly
gain on the right side of the ledger.

If it didn't pay them to advertise,
do you think for one minute that
they would do it on such a large
scale? And think of the hundreds
of big mail-order houses doing ex-
actly what this one Chicago mail-
order house is doing right here un-
der our very noses. Then multiply
this big expenditure by that num-
ber and the result will startle you.

You have your remedy, you have
always had it, but you persistently
fail to apply it.

You should fight the mail-order
house with its own weapon—adver-
tising.

You think that won't pay. But
what have you got to say about the
figures? Are they not proof that it
does pay? Have you given it a fair
trial? No. Then try it!

But, you say, the Bee gives you
this advice with the hope that its
advertising will grow and our pro-
fits increase. Very true. And with
the increase of our profits so will
your profits increase ten-fold.

When the newspaper attacks the
mail-order house, when it urges the
home people to spend their dollars
at home with the home merchants
you laud it, you cheer it, you give
to the editor words of encourage-
ment, and say, "go to it, that's just
fine."

The newspaper spends hundreds
of dollars each year doing that thing
for your benefit, keeping the dollars
at home to swell your own bank ac-
count.

Of course that is the advertising

in which you believe, and you

believe in it because it does not cost

you anything.

But what if the home newspaper

always boosting your business, keep-

ing the dollars at home for you, ask-

you to buy fifty dollars worth of

space a year to be used in inviting

the home people to patronize your

business, Ah, that is another mat-

ter.
"Swat the fly" has but recently
become a popular slogan. The slogan
of the city mail-order house has
been for years "swat the small mer-
chant" and the implement of war is
advertising. You have at your com-
mand the same implement with
which to "swat the mail-order
house." Use it.

Co-operate with your home
news paper, the benefits will be
mutual. The newspaper uses its
space without cost to you to keep
the dollars at home for you, so
you should buy some of the space
to get the dollars. It is not the
custom of the American citizen to
go where he is not invited to
go. If he is invited to buy in
Chicago he will buy there but he
would rather buy at home if he
were invited to do so. But don't
let the newspaper do all the in-
viting. That is a practice in every
respect as unfair as unfair can
be.

And don't think either that
your particular business is not
affected. Be you a dealer in
drugs, shoes, clothing, dry goods,
groceries, hardware, insurance,
lumber, or any article in daily
use in this country, you are af-
fected by the campaign of the
mail-order house against your
business. Start your campaign
by co-operating with your home
newspaper.

Swat the mail-order house with
its own weapon—ADVERTISING.
Has it ever occurred to you that
the big mail order houses of the
country are constantly taking
business from your city that
rightfully belongs to local mer-
chants? It is all very well and
good for you to say that this is of
no direct financial interest to
you, but please remember that the
success of any newspaper de-
pends largely on the prosperity
of all local interests.

No publisher should overlook
every opportunity to discourage
the practice of buying away
from home. Whatever people
may want can almost be secured
right in town and just as cheap
if not cheaper. Where it is ab-
solutely necessary to send for the
desired article let the merchant
get it from his wholesaler and
let him make the profit.

Talk "trade at home" when-
ever you can through the col-
umns of your paper. Such a po-
lity will not only be of help to
the local interest and community
in general, but will put you in
the way of securing more adver-
tising from local dealers.

"WHY WOMEN CANNOT SLEEP."

The highly organized, finely strung
nervous system of women subjects them
to terrors of nervous apprehension which
no man can ever appreciate.

The peace of mind, the mental poise
and calmness under difficulties, which
is necessary for happy womanhood, is
only possible when the sensitive feminine
organism is in a perfectly healthy con-
dition. If there be any weakness or de-
rangement in this respect no remedy in
the world so completely restores womanly
health, nervous vigor and capability as
the wonderful "Favorite Prescription"
invented by Dr. R. V. Pierce. It purifies,
heals and strengthens; insures functional
regularity; provides physical reinforcement
and sustaining power at periods of special
weakness and depression.

Covington, Ky.—"For about twenty
years I have known of Dr. Pierce's
Favorite Prescription. I began using it
because a friend recommended it. When
run down, nervous and dragging around
I used several bottles of this well-known
remedy. It always helps me just as it
is advertised to do. It is the most
pleasant and the best woman's medicine
I have ever used. I have recommended
it to several others. My daughter has
also used it with just as good results as
I have."—Mrs. LUCRETIA GIBSON, 1338

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me."

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

Paxtine

A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ills, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At druggists, 50c. large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.

OF INTEREST TO EMPLOYERS AND OTHERS

If our readers are, perhaps, aware that the United States Government, through the Department of Labor, has inaugurated as a part of the Division of Information a country-wide employment bureau, it is the belief of those connected with the work that it will go far toward improving business conditions in the United States. The underlying principle of the work is, perhaps, best expressed by the Secretary of the Department of Labor in the following words:

"The Department of Labor—has—established Distribution Branches throughout the country for the purpose on the one hand of developing the welfare of the wage earners of the United States and improving their opportunities for profitable employment, and on the other hand of affording to employers a method whereby they may make application for such help as they need, either male or female, citizens or alien residents, and have their wants supplied through said Distribution Branches."

Comparative statistics show that there has been in some portions of the United States a surplus of labor, while in other portions a deficiency. It is believed that this condition will be almost, if not entirely, eliminated by this work. This will appear from the following brief explanation of the system under which the work is conducted.

The United States has been divided into eighteen sections, or "Distribution Zones," as they are called, and in each of these zones an employment office has been opened. These zones in nearly every case have been sub-divided and branch offices opened under the jurisdiction of the controlling zone office. This means that a large number of employment offices have been opened by the United States Government. At these offices the employer who needs help of any kind, skilled or unskilled; be he farmer, merchant or manufacturer, or whatever his business, can secure what he wants without any more trouble or expense than the work of stating what he desires, and the expense of a postage stamp if he finds it inconvenient to call at the Distribution Office in person. Neither is any fee accepted by the Government from those seeking employment. It goes even further, every postmaster in the United States is a representa-

tive of this Employment Bureau. At every postoffice in the United States will be found, on application to the postmaster, blanks for use of employers in need of help and for the use of persons seeking employment. These blanks, upon being handed to the postmaster are transmitted by him, free of charge, to the proper zone office, where both blanks are properly registered, and proper help selected for the employer in need of help, either from applicants residing in the city in which the office is located, or from the applications on file. On the day the employer's application is received by the Distribution Office, a copy is sent to the Division of Information, at Washington, D. C. At frequent intervals these applications are assembled and published in the form of bulletins and distributed to all Distribution Offices, thereby making it possible for each office to know where help of any description is in demand.

At the Distribution Office the best interests of the employer are kept constantly in mind, and only such help is selected for positions as are, in the opinion of the officer in charge, well qualified to perform the duties required.

C. & O. WILL SELL
NO MORE LIQUOR
AFTER JUNE 30

Lexington, Ky., June 28—The C. & O. officials here have been notified that the trains on that line will be "dry" after June 30. Heretofore the dining and buffet cars on this road have held license from the States through which they passed to sell liquors while going through "wet" territory, though the sales had to be stopped whenever a "dry" county was reached. Now, however, so much of the country along the roadside is prohibition that it keeps the persons in charge of the liquor service in such a stew over opening and closing their bars that it has been decided that the profits of the business do not pay for the trouble, and when the licenses expire on June 30, they will not be renewed, and the trains will be "dry" from one end of the road to the other.
